RFI Description:	Tristar Inc. has commenced the procurement process for lifting equipment inspection and certification services at its port and shorebase facility in Versailles, West Bank Demerara, Guyana. Tristar is seeking information from qualified and experienced contractors for participation in a competitive procurement process. This RFI will be used to identify and shortlist competent service providers for the inspection, load testing, maintenance and certification services.
Submission:	Submission Deadline: July 7th, 2026 Responses must be submitted electronically as follows: • in PDF format, • to email address: procurement@tristarguyana.com, and • with email subject: RFI Response - Lifting Equipment Services - Tristar Port of Guyana
Clarifications:	Clarification Deadline: July 3rd, 2026 Clarifications must be submitted electronically as follows: • to email address: procurement@tristarguyana.com, and • with email subject: Clarification Request - RFI: Lifting Equipment Services - Tristar Port of Guyana

Service Types:

- Annual Inspection and Certification of the Tadano GR-1000-2 Crane (Equipment No. RTC 100255)
- Inspection and Load Test Certification for Reach Stackers
- Inspection and Load Test Certification for 3-Ton Forklifts
- Inspection and Load Test Certification for 7-Ton Forklifts
- Full Service Maintenance for Kalmar Reach Stackers
- Full Service Maintenance for Kalmar 16-Ton Forklifts
- Certification and Load Testing for Kalmar 16-Ton Forklifts

Information Requested

- Company profile and qualifications
- Relevant experience with lifting equipment inspections, certifications, load testing and maintenance
- Certifications, accreditations and technical competencies
- Details of qualified inspectors, technicians and available resources
- Available testing, calibration and maintenance equipment
- Local support capabilities and emergency response capacity
- Client references and similar service experience
- Maintenance capabilities for Tadano, Kalmar, reach stackers and forklifts

This RFI is issued for information-gathering and vendor prequalification purposes only. The final scope of work, equipment list, technical requirements and commercial terms will be issued during the RFQ/RFP stage to shortlisted vendors.
